July 24, 2025

There are a ton of Bluetooth speakers on the market. Just about none of them have any user-serviceable components or replacement parts available. When they break, they're dead and gone, and you buy a new

- 2.1 Bluetooth speaker
- Cradle to Cradle Certified
- IP67
- Party Link
- 200-250€

Teufel MYND

- Open-Source concept (except BT module)
- Firmware, CAD on Github
- swappable Battery
- Easy disassembly

**Lautsprecher Teufel GmbH**
